JOURNAL

OF MECHANICAL ENGINEERING, SCIENCE, AND INNOVATION

Volume 6, No. 1, April 2026

Analysis of Surface Defects on RAM BOP with Non-Destructive Testing and Crack Propagation Simulation to Detect Potential Crack Development
Fadhil Wibowo, Andoko Andoko, Yahya Zakaria

Effect of Cylinder Rotation Speed on Corn Drying Characteristics in a Rotary Dryer
Muhammad Al Fatih Habibi, Rudy Sutanto, Made Wirawan

Analysis of Environmental Indicators Eco Management and Audit Scheme (EMAS) to Improve Energy Efficiency Using the Sustainable Overall Throughput Effectiveness (SOTE) Indicator in the Production Department (Case Study: XYZ Company, Pasuruan, East Java)
Cayo Pungki Andrianto, Sukendro Broto Sasongko

Corrosion-Induced Failure Mechanisms in Bio-Nano Hybrid Coatings for Structural Applications
Maulidia Hendriani, Andoko Andoko, Riduwan Prasetya, Yahya Zakaria

Comparative Structural Performance Evaluation of Modified Stopper Mounting Designs in Conveyor Systems Using Finite Element Simulation
Maulidia Hendriani, Andoko Andoko, Riduwan Prasetya, Yahya Zakaria

Influence of Electroplating Time on the Hardness Properties of Nickel-Coated Aluminum
Margono Margono, Cavin Dwi Prasetyo, Moch Chamim, Deni Andriyansyah, Bondan Wiratmoko Budi Santoso, Deslana Avinda Krisna Putra, Arif Surono, Hassan Khamis Hassan

CFD-Validated Kriging Surrogate for Multi Objective Aerodynamic Optimization of a Go-Kart Drag–Lift Pareto Front under Pitching Moment Constraint
Ahmad Al Kafi, Ahmad Atif Fikri

Numerical Study of Thermal Hydraulic Performance Improvement in Double Pipe Heat Exchangers Using Different Corrugated Tube Geometries
Muhammad Hisyam Haidar Al Ghazi, Damora Rhakasywi, Fahrudin Fahrudin

Comparative Analysis of E5–E15 Fuel Blends and 10–14 g CVT Roller Mass on the Power–Torque Curves of a 110 cc Automatic Motorcycle
Muhammad Vendy Hermawan, Deni Andriyansyah, Muhammad Ilyas Safarudin

Comparison of Manual, AI Generative, and Hybrid Design on Structural Performance and Manufacturing Aspects of Truck Wheel Mounting Aid Frame using FEA in Fusion 360
Muhammad Najmul Aulia, Dony Satriyo Nugroho

A Comparative Study of the Effect of Water Level on a Performance of a Hemispherical Acrylic Solar Distiller for Seawater Desalination
Bambang Raharjo, La Ode Mohammad Firman

JOURNAL
Journal of Mechanical Engineering, Science, and Innovation

VOLUME 06 ISSUE 1 April 2026

Analysis of Surface Defects on RAM BOP with Non-Destructive Testing and Crack Propagation Simulation to Detect Potential Crack Development
Fadhil Wibowo, Andoko Andoko, Yahya Zakaria 1-13

Effect of Cylinder Rotation Speed on Corn Drying Characteristics in a Rotary Dryer
Muhammad Al Fatih Habibi, Rudy Sutanto, Made Wirawan 14-25

Analysis of Environmental Indicators Eco Management and Audit Scheme (EMAS) to Improve Energy Efficiency Using the Sustainable Overall Throughput Effectiveness (SOTE) Indicator in the Production Department (Case Study: XYZ Company, Pasuruan, East Java)
Cayo Pungki Andrianto, Sukendro Broto Sasongko 26-41

Corrosion-Induced Failure Mechanisms in Bio-Nano Hybrid Coatings for Structural Applications
Maulidia Hendriani, Andoko Andoko, Riduwan Prasetya, Yahya Zakaria 42-58

Comparative Structural Performance Evaluation of Modified Stopper Mounting Designs in Conveyor Systems Using Finite Element Simulation
Maulidia Hendriani, Andoko Andoko, Riduwan Prasetya, Yahya Zakaria 59-79

Influence of Electroplating Time on the Hardness Properties of Nickel-Coated Aluminum
Margono Margono, Cavin Dwi Prasetyo, Moch Chamim, Deni Andriyansyah, Bondan Wiratmoko Budi Santoso, Deslana Avinda Krisna Putra, Arif Surono, Hassan Khamis Hassan 80-88

CFD-Validated Kriging Surrogate for Multi Objective Aerodynamic Optimization of a Go-Kart Drag–Lift Pareto Front under Pitching Moment Constraint
Ahmad Al Kafi, Ahmad Atif Fikri 89-103

Numerical Study of Thermal Hydraulic Performance Improvement in Double Pipe Heat Exchangers Using Different Corrugated Tube Geometries
Muhammad Hisyam Haidar Al Ghazi, Damora Rhakasywi, Fahrudin Fahrudin 104-118

Comparative Analysis of E5–E15 Fuel Blends and 10–14 g CVT Roller Mass on the Power–Torque Curves of a 110 cc Automatic Motorcycle
Muhammad Vendy Hermawan, Deni Andriyansyah, Muhammad Ilyas Safarudin 119-131

Comparison of Manual, AI Generative, and Hybrid Design on Structural Performance and Manufacturing Aspects of Truck Wheel Mounting Aid Frame using FEA in Fusion 360
Muhammad Najmul Aulia, Dony Satriyo Nugroho 132-147

A Comparative Study of the Effect of Water Level on a Performance of a Hemispherical Acrylic Solar Distiller for Seawater Desalination
Bambang Raharjo, La Ode Mohammad Firman 148-159
